

PRESS RELEASE

Chyldren (rock/electronic) releases debut EP

Chyldren's debut EP, mixed and mastered by Magnus Lindberg (**Cult of Luna**) will be released on the 15th of November. Based in Lausanne and Paris, Chyldren mixes the grit of rock guitars with digital sound to create songs carried by Justine Marzack's ethereal vocals. The EP is available to listen privately on Soundcloud ahead of the digital release (Spotify, iTunes, Deezer, ...)

soundcloud private player:

<https://soundcloud.com/chyldren/sets/creatures-ep/s-ksz45>

At the project's origins is Victor Jaquier (guitar) who composed the first tracks in 2018 with a heavy influence from bands such as **Crystal Castles** or **Ladytron**. He called on Justine Marzack (ex **In Broken English**) for the vocals. The later addition of his old bandmates Jacques Viredaz on bass and David Haldimann on drums (both from Swiss acts **Abraham** and **Kruger**) brings a raw rock energy to the project.

Chyldren will release the music video for their song "Beautiful Rivers" one day ahead of the EP release, on the 14th of November. They will take the road in February 2020 to fend for their record on European stages, including the stage of the Supersonic (Paris, FR) [on the 20th of February](#).
